

Client Meeting 3

Date:

Friday The Eighth Day of December, 2023

Present:

Anthony Edwards (Client), Samuel Cheney, Luke McLean, Tom Belcher

Apologies:

Not Present (No Apologies):

Ryan Statton

Welcome:

Client welcomes group and provides a brief summary of what will be covered in the meeting

Meeting Purpose:

To gather further requirements and to show off prototypes

Completed:

- ESP32 setup completed and display successfully used
- Pi found out to be not particularly useful so we have updated the client on the fact we most likely will not use it
- Discussed requirements as detailed in the 'To Complete Section'

Regular Items:

- Gauge client feedback on prototypes
- Collate as many requirements as possible as we go along

To Complete:

- Make a login page to increase security
- Use ESP32 board for login
- Looks on database for items and auto updates calendar
- Login auth on server
