

## **Client Meeting 6**

### **Date:**

Friday The Sixteenth Day of February, 2024

### **Present:**

Anthony Edwards (Client), Samuel Cheney, Luke McLean, Ryan Statton

### **Apologies:**

Tom Belcher

### **Not Present (No Apologies):**

### **Welcome:**

Client introduces the meeting and calls for a standup to show off our work

### **Meeting Purpose:**

To show off what we have all been doing, and getting Ryan back on track

### **Completed:**

- Created a homepage for the web app
- Created a login page for the web app
- Server being tested by Tom but not working everywhere

### **Regular Items:**

- Work on showing off the progress on both the web app and the actual device itself each meeting
- Work on keeping up to date with administrative tasks

### **To Complete:**

- Ask Tom about how the variables communicate with the backend
- Samuel tidy up login page and add the required fields
- Luke tidy up homepage and apply Tony's design advice to the calendar section
- Ryan organise a team meeting, catch up with administrative tasks, and get started on some coding
