Client Meeting 5

Date:

Friday The Second Day of February, 2024

Present:

Anthony Edwards (Client), Samuel Cheney, Luke McLean, Tom Belcher

Apologies:

Not Present (No Apologies):

Ryan Statton

Welcome:

Client introduces meeting and proposes a team standup as well as the other purposes of the meeting

Meeting Purpose:

To check out the low-fidelity prototype and the high-fidelity prototype

Completed:

- Sorted out the Kanban board and brought some stability to distribution of work once more
- Low-fidelity and high-fidelity prototypes completed and shown off
- Client updated on actual development progress

Regular Items:

- Samuel to learn Svelte in greater detail and start moving from non-functional prototypes to main development
- Tom continues working on the backend of the web server
- Luke focuses on the web application

To Complete:

- Get calendar feature working
- Send video of display in action, even if hardcoded, to Tony
